

# Clashganny South Solar Farm

**Capacity**

13 MW

**Project Type**

Solar - Planning secured

**Planning Grant Date**

21 April 2017

**Site Location**

(52.299, -7.332)

**Site Overview**

Located in Co. Waterford, Clashganny South Solar Farm is being developed within the townlands of Clashganny and Coolroe. The site is approximately 1 km from the village of Portlaw which lies southwest of the site. The site itself is of moderate grade agricultural value, consisting of tilled land and arable land used for the production of arable crops.

Planning permission for this site was granted by Waterford City and County Council in 2017 and includes for 18 No. Conditions. The grant includes for include one single storey electrical substation building, electrical transformer/inverter station modules, solar PV panels ground mounted on steel support structures, access roads, fencing and associated electrical cabling, ducting and ancillary infrastructure.

The site is proximate to existing electrical infrastructure and the current grid connection point is projected as the Portlaw 38kV substation local to the site.

This solar farm is being developed by Highfield Energy as part of our broader commitment to a sustainable future.

**About Highfield Energy**

Highfield Energy develops, constructs, owns and operates electricity generation projects with a particular focus on renewables. Possessing significant technical and market expertise Highfield Energy optimises potential developments in order to provide the highest quality results. Highfield Energy has a proven track record of working in partnership with developers, landowners and wider project stakeholders to promote sustainable energy sources. We currently have over 1 GW of utility-scale wind, solar photovoltaic (PV) and energy storage projects within our portfolio.
