

# Ballymorris South Solar Farm

**Capacity**

5 MW

**Project Type**

Solar - Planning secured

**Planning Grant Date**

28 June 2018

**Site Location**

(52.684, -8.778)

**Site Overview**

Located in Co. Clare, Ballymorris South Solar Farm is being developed within the townlands of Ballymorris and Garryncurra. The site is approximately 2 km southwest of the village of Cratloe. The development site currently consists of improved grassland used for the grazing of livestock. The Solar Farm will be situated on shallow sloping agricultural land at an approximate elevation of 4-10m AOD.

Planning permission for this site was granted by Clare County Council in 2018 and includes for 18 No. Conditions. The grant includes for include one single storey electrical substation building, electrical transformer/inverter station modules, solar PV panels ground mounted on steel support structures, access roads, fencing and associated electrical cabling, ducting and ancillary infrastructure.

The site is proximate to existing electrical infrastructure and the current grid connection point is projected as the Cratloe 38kV substation local to the site.

This solar farm is being developed by Highfield Energy as part of our broader commitment to a sustainable future.

**About Highfield Energy**

Highfield Energy develops, constructs, owns and operates electricity generation projects with a particular focus on renewables. Possessing significant technical and market expertise Highfield Energy optimises potential developments in order to provide the highest quality results. Highfield Energy has a proven track record of working in partnership with developers, landowners and wider project stakeholders to promote sustainable energy sources. We currently have over 1 GW of utility-scale wind, solar photovoltaic (PV) and energy storage projects within our portfolio.
